time of loan origination from the adjusted sales proceeds (i.e., sales proceeds less transfer costs and capital improvement costs incurred by the mortgagor, but excluding any liens) and multiplying by the appreciation margin.

(2) If the mortgage balance is greater than the appraised value at the time of loan origination but less than the adjusted proceeds, the mortgagee's share is calculated by subtracting the mortgage balance from the adjusted sales proceeds and multiplying by the appreciation margin.

(3) If the mortgage balance is greater than the adjusted sales proceeds, the net appreciated value is zero.

(4) If there has been no sale or transfer involving satisfaction of the mortgage at the time the mortgagee's share of net appreciated value becomes payable, *sales proceeds* for purposes of this section shall be the appraised value as determined in accordance with procedures approved by the Secretary.

(c) *Effective interest rate.* To determine the effective interest rate, the amount of interest which accrued in the twelve months prior to the sale of the property or the prepayment is added to the mortgagee's share of the net appreciated value. The sum of the mortgagee's share of the net appreciated value and the interest, when divided by the sum of the mortgage balance at the beginning of the twelve month period prior to sale or prepayment plus the payments to or on behalf of the mortgagor (but not including interest) in the twelve months prior to the sale or prepayment, shall not exceed an effective interest rate of twenty percent.

(d) *Disclosure.* At the time the mortgagee provides the mortgagor with a loan application for a mortgage with shared appreciation, the mortgagee shall disclose to the mortgagor the principal limit, payments and interest rate which are applicable to a comparable mortgagee offered by the mortgagee without shared appreciation.

(Approved by the Office of Management and Budget under control number 2528–0133)

[54 FR 24833, June 9, 1989; 54 FR 32060, Aug. 4, 1989; 54 FR 36765, Sept. 5, 1989]

§ 206.25 Calculation of payments.

(a) *Initial payment.* At closing an initial payment shall be made by the mortgagee in an amount equal to the sum of initial MIP under § 206.105(a) if not paid in cash by the mortgagor, fees and charges allowed under § 206.31(a) if not paid in cash by the mortgagor, and any additional payment requested by the mortgagor. The total initial payment, plus any amount set aside for repairs after closing under § 206.47, for property charges under § 206.205(f), or for servicing charges under § 206.207(b), shall not exceed the principal limit.

(b) *Monthly payments—term option.* (1) Using factors provided by the Secretary, the mortgagee shall calculate the monthly payment so that the sum of paragraphs (b)(1)(i) or (b)(1)(ii) of this section added to paragraphs (b)(1)(iii), (b)(1)(iv), (b)(1)(v) and (b)(1)(vi) of this section shall be equal to the principal limit at the end of the payment term:

(i) An initial payment under paragraph (a) of this section plus any initial servicing charge set aside under § 206.19(d); or

(ii) The mortgage balance at the time of a change in payments option in accordance with § 206.26, plus any remaining servicing charge set aside under § 206.19(d); and

(iii) The portion of the principal limit set aside as a line of credit including any set asides for repairs and first year property charges under § 206.19(d); and

(iv) All monthly payments due through the payment term, including funds withheld for payment of property charges under § 206.205; and

(v) All MIP, or monthly charges due to the Secretary in lieu of mortgage insurance premiums due through the payment term; and

(vi) All interest through the remainder of the payment term. The expected average mortgage interest rate shall be used for this purpose.

(2) If the mortgage has an adjustable interest rate, the mortgagee shall make all monthly payments through the payment term even if the mortgage balance exceeds the principal limit because the actual average mortgage interest rate exceeds the expected average mortgage interest rate.

(c) *Monthly payments—tenure option.* Monthly payments under the tenure payment option shall be calculated as if the number of months in the payment term equals 100 minus the age of the youngest mortgagor multiplied by 12, but payments shall continue until the mortgage becomes due and payable under § 206.27(c).

(d) *Line of credit separately or with monthly payments.* If the mortgagor has a line of credit, separately or combined with the term or tenure payment option, the principal limit is divided into an amount set aside for servicing charges under § 206.19(d), an amount equal to the line of credit (including any portion of the principal limit set aside for repairs or property charges under § 206.19(d)), and the remaining amount of the principal limit (if any). The line of credit amount increases at the same rate as the total principal limit increases under § 206.3. A payment under the line of credit may not exceed the difference between the current amount of the principal limit for the line of credit and the portion of the mortgage balance, including accrued interest and MIP, attributable to draws on the line of credit.

(e) *Payment of MIP and interest.* At the end of each month, interest accrued during the month shall be added to the mortgage balance. Monthly MIP shall be added to the mortgage balance when paid to the Secretary.

(f) *Mortgagee late charge.* The mortgagee shall pay a late charge to the mortgagor for any late payment. If the mortgagee does not mail or electronically transfer a scheduled monthly payment to the mortgagor on the first business day of the month or make a line of credit payment within 5 business days of the date the mortgagee received the request, the late charge shall be 10 percent of the entire amount that should have been paid to the mortgagor for that month or as a result of that request. For each additional day that the mortgagor does not receive payment, the mortgagee shall pay interest at the mortgage interest rate on the late payment. In no event shall the total late charge exceed five hundred dollars. Any late charge shall be paid from the mortgagee's funds and shall not be added to the mortgage balance.

(g) *No minimum payments.* A mortgagee shall not require, as a condition of providing a loan secured by a mortgage insured under this part, that the monthly payments under the term or tenure payment option or draws under the line of credit payment option exceed a minimum amount established by the mortgagee.

[54 FR 24833, June 9, 1989; 54 FR 32060, Aug. 4, 1989, as amended at 60 FR 42760, Aug. 16, 1995; 61 FR 49033, Sept. 17, 1996]

§ 206.26 Change in payment option.

(a) *General.* The payment option may be changed as provided in this section.

(b) *Change due to initial repairs.* (1) If initial repairs after closing under § 206.47 are completed without using all of the funds set aside for repairs, the mortgagee shall transfer the remaining amount to a line of credit and inform the mortgagor of the sum available to be drawn.

(2) If repairs after closing under § 206.47 cannot be completed with the funds set aside for repairs, the mortgagee may advance additional funds to complete repairs from an existing line of credit. If a line of credit is not sufficient to make the advance or if no line of credit exists, future monthly payments shall be recalculated for use as a line of credit in accordance with § 206.25.

(3) If repairs are not completed when required by the mortgage, the mortgagee shall stop monthly payments and the mortgage shall convert to the line of credit payment option. Until the repairs are completed, the mortgagee shall make no line of credit payments except as needed to pay for repairs required by the mortgage.

(c) *Other changes.* As long as the mortgage balance is less than the principal limit, a mortgagor may request a change from any payment option to another or a payment of any amount (not to exceed the difference between the principal limit and the sum of the mortgage balance and any set asides for repairs or servicing charges). A mortgage will continue to bear interest at a fixed or adjustable interest rate as agreed between the mortgagee and the mortgagor at loan origination. The
